E&OE (Errors & Omissions Excepted)

OWNER'S MANUAL

IMPORTANT

- Before using this product, read this manual carefully to understand the contents herein stated.
- After reading this manual, be sure to keep it near the product or in a convenient place for easy reference when necessary.

**Image used for illustration purposes only and may differ from actual product.*

PRECAUTIONS BEFORE USE

The following safety precautions are given throughout this manual. They must be strictly followed to protect those who install, use or maintain this product as well as to protect players, visitors and property.

For safety reasons.

The following suggestions should be adhered to:

 **WARNING**
Disregarding could result in serious injury.

 **CAUTION**
Disregarding could result in injury or product damage.

The following graphic suggestions describe the types of precautions to be followed.

 Indicates that care should be taken.

 Indicates a matter which must be performed.

 Forbidden.

Certain procedures require a qualified in-shop maintenance person or industry specialist. For such instructions, a qualified person must take care of the jobs.

- Otherwise an electric shock, machine trouble, or a serious accident may result.
- Replacing the machine parts, inspecting and maintaining the machines, and troubleshooting must be assigned only to a qualified in-shop maintenance person or industry specialist. This booklet gives instructions that hazardous jobs in particular must be handled by an industry specialist. Qualified in-shop maintenance person and industry specialist are defined as follows.

Qualified in-shop maintenance person

- A service staff shall have experience in operations of game machines. The staff shall be responsible for assembly, installation, inspection and maintenance of the machine.

Industry specialist

- An industry specialist must be engaged in designing, manufacturing, inspecting and servicing amusement machines. He or she must have an education in electrical, electronic and mechanical engineering, and routinely maintain and repair amusement machines.

PRECAUTIONS FOR USE

WARNING

Be sure to consult an industry specialist when setting up, moving or transporting this product

- This product should not be set up, moved or transported by any one other than an industry specialist.
- When installing this product, set the 4 leg levelers evenly on the floor and make sure that the product is installed stably in injury or accident
- When installing this product, do not apply undue force on movable parts. Otherwise, injury and accident may result, or the product may be damaged.

This machine is for indoor use only. Do not install outside.

Do not place the machine near emergency exits.

Protect the machine from:

Rain or moisture.

Direct sunlight

Direct heat from air-conditioning and heating equipment, etc.

Hazardous flammable substances.

failure to observe these warnings may result in injury, accidental damage or malfunction.

Do not place containers holding chemicals or water on or near the machine.

Do not place object near the ventilating holes.

Do not bend the power cord or place heavy objects upon it.

Never connect or disconnect the power cord with wet hands.

Never remove the power by pulling the power cord, always use the power sw.

PRECAUTIONS FOR USE

CAUTION

Be sure to use indoor wiring within the specified voltage requirements. It is not recommended to use extension cables. If for some reason an extension cable must be used then please ensure that the rating of the extension cable matches that of the machine specifications or greater. Never use a multi-connection extension cable.

Be sure to use the attached power cord.

Do not lay the power cord where people walk through.

Be sure to ground this product.

Do not exert excessive force when moving the machine.

For proper ventilation, keep the machine at least 100mm (4") away from the walls.

Do not alter the system related dipswitch settings.

PRECAUTIONS FOR USE

CAUTION

If there is any abnormality such as smoke, bad smell or abnormal noise being emitted from the machine, immediately turn OFF the main power switch and unplug the power cord.

- Using the machine in abnormal conditions may result in a fire hazard or accidents.

In case of abnormality

1. Turn OFF the main power switch.
2. Unplug the power cord from the machine.
3. Contact your nearest dealer.

Do not leave the power cord plugged in incorrectly or covered with dust. 

Do not plug or unplug the power cord with wet hand. 

In handling the power cord, follow the instructions below. 

- Do not damage the power cord.
- Do not bend the power cord.
- Do not heat the power cord.
- Do not bind the power cord.
- Do not sandwich the power cord.
- Do not modify the power cord.
- Do not twist the power cord.
- Do not pull the power cord.
- Do not stand on the power cord.
- Do not drive a nail into the power cord.

If the power cord or power plug becomes damaged, stop using the machine immediately and ask your nearest dealer to replace the parts.

PRECAUTIONS FOR USE

CAUTION

Do not use this machine anywhere other than industrial areas.

- Using in a residential area or an area next to a residential area could affect signal reception of radios, television sets, telephones, etc.

When opening or closing the glass door, always hold the glass with one hand and move the door gently. If the glass door is opened or closed carelessly, your hand or fingers may get trapped or pinched or the glass may smash.

When moving the machine, do not push the glass section. Tempered glass is used but it can still smash if pressed hard. If the glass smashes, personal injury can occur to the player or bystanders.

For safety reasons, do not allow any of the following people to play the game.

- Those who have high blood pressure or heart problem.
- Those who are intoxicated or under the influence of drugs.
- Pregnant women.
- Those who are not in good health.
- Those who have experienced muscle convulsions or loss of consciousness when playing video games, etc.
- Even players who have never been adversely affected by light stimulus might experience dizziness or headache depending on their physical condition when playing the game.
- Those who have neck or spinal cord problems.

To avoid injury from falls and electric shock due to spilled drinks, instruct the player not to place items such as drinks on the machine.

To avoid electric shocks and short circuits, do not allow customers to put hands, fingers or extraneous matter into the openings of the machine or small opening in or around the doors.

To avoid falls and resulting injury, immediately stop the customer from leaning against or climbing upon the machine.

Instruct guardians of small children to keep an eye on their children at all times.

Children cannot sense danger. Allowing small children to get near a player who is playing the game may result in the child being bumped, stuck or knocked.

PRECAUTIONS FOR USE

WARNING

Be sure to turn OFF the main power switch and unplug the power cord from the product before inspecting or cleaning the machine.

When replacing parts, be sure to use parts of the correct specification. Never use parts other than those specified.

Opening inside the machine shall be done by a machine specialist or engineer qualified to do so as high current and voltages are present inside.

If the sub power switch of the service panel is turned OFF without turning OFF the main power switch of the power supply unit, some parts in the units remain live. When opening the back door, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.

Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodeling.

To clean the game machine, wipe it with a soft cloth dampened in a neutral detergent.

- Using thinner or other organic solvent or alcohol may decompose the material.
- Electrical shock or equipment failure could be caused by water entering the inside of the machine.

CAUTION

Components in the game are sensitive to vibrations and impact. Care should be used when moving and transporting the game machine. Be sure not to let the machine tip over.

Before moving the machine, be sure to turn OFF the main power switch, unplug the power cord from the receptacle and remove the power cord from the machine.

Before moving take the machine, off the levelers and move it on the casters.

Avoid excessive force while moving the machine.

- When setting up, inspecting, maintaining, moving or transporting this product, follow the procedures and instructions set forth in this manual and perform such work safely.
- Do not set up, handle, inspect, maintain, move or transport this product under conditions equivalent to the condition of "WARNING" or "CAUTION" specified in this manual.
- If a new owner is to have this product as a result of transfer, etc., be sure to give this manual to the new owner.

OPERATOR NOTICE

This prize offering game device has many settings and operator options to accommodate various marketing concepts, a wide range of prizes, and use in International Territories and throughout the United States.

In the US individual state statutes and local jurisdiction codes can impact payment required amusement themed and designed games offering prizes, including the type and value of the prizes. Further the degree of skill requirements vary. Not all settings and options are suitable for every jurisdiction.

Your Responsibility as an Operator

- It is solely your responsibility as the operator of the game to fully comply with laws, regulations and prize value and type limitations in the jurisdiction where you place and offer this game to the public. (Contact your legal adviser).
- **SKILL CONSIDERATIONS:** Generally the greater the degree of control that players have as to the movements of the retrieval tool the more likely that the element of “skill” will be present. This infers that the prizes offered are retrievable at any point in time when the skill requirement is achieved in accord with posted rules of play.
- Test at each service that all player controls and the machinery work and track smoothly and time and rules display are fully visible and working.
- If the machine is ever moved or violently bumped or tilted then it is recommended that the machine is re-calibrated.
- Good maintenance and cleaning of the game and cabinetry is good business and enhances your sales. A poorly maintained machine may not continue to work in the way in which it was designed.
- Tips and notices to players should be posted behind a protective cover or glass and easily viewed from the player’s position.
- Do not alter the machine’s CPU board, circuitry, components, or change the EPROM software without the manufacturer’s authorization. Doing so can result in criminal or civil liabilities, and void your factory warranty.
- Do not alter or modify this machine in any shape or form other than that described in the manual. Doing so can result in criminal or civil liabilities, and void your factory warranty.
- Neither manufacturer nor the distributor is responsible for any losses of prizes from this machine. It is the responsibility of the operator to set up that machine in accordance with the manual and maintain a level of security around the machine adequate for the level of prizes contained therein.

If you have questions or need technical assistance call the manufacturer or your authorized distributor for guidance.

 **WARNING**

Servicing and maintenance work of the contents herein stated should be performed by the SERVICEMAN stipulated as per IEC Standard. Those who do not have technical expertise and knowledge other than the SERVICEMAN are not allowed to perform the work herein stated. Executing aforementioned work by such non-technical personnel can cause serious accidents that may endanger life.

Parts replacement, maintenance inspections and troubleshooting should be carried out by site maintenance personnel or other qualified professionals. This manual includes directions for potentially dangerous procedures which should only be carried out by professionals with the appropriate specialised knowledge.

The site maintenance personnel or other qualified professionals mentioned in this manual are defined as follows:

Site maintenance personnel:

Individuals with experience in maintaining amusement equipment, vending machines, etc., working under the supervision of the owner/operator of this product to maintain machines within amusement facilities or similar premises by carrying out everyday procedures such as assembly, maintenance inspections, and replacement of units/expendable parts.

Activities to be carried out by site maintenance personnel:

Amusement equipment/vending machine assembly, maintenance inspection and replacement of units/expendable parts.

Other qualified professionals:

Persons employed by amusement equipment manufacturers, or involved in design, production, testing or maintenance of amusement equipment. The individual should have either graduated from technical school or hold similar qualifications in electrical/electronics/mechanical engineering.

Activities to be carried out by other qualified professionals:

Amusement equipment/vending machine assembly, repair/adjustment of electrical/electronic/mechanical parts.

Waste of Electrical and Electronic Equipment (WEEE) Statement.

The WEEE (Waste of Electrical and Electronic Equipment) directive places an obligation on all EU based manufacturers and importers of Electrical and Electronic Equipment to take back products at the end of their useful life. Sega Amusements Europe Ltd accepts its responsibility to finance the cost of treatment and recovery of redundant WEEE in the United Kingdom in accordance with the specified WEEE recycling requirements.

The symbol shown below will be on all products manufactured from 13th August 2005, which indicates this product must NOT be disposed of with other normal waste. Instead, it is the user's responsibility to dispose of their waste equipment by arranging to return it to a designated UK collection point for the correct recycling of waste electrical and electronic equipment.

For more information about where you can send your waste equipment for recycling contact your local authority office.

For non-UK users contact your local authority office for information on the recycling of Waste Electrical and Electronic Equipment.

Battery Recycling Statement.

The EC Directive on Batteries and Accumulators (2006/66/EC) aims to minimise the impact of batteries on the environment and encourage the recovery of the materials they contain. To achieve increased collection and recycling of waste batteries, the Directive places 'producer responsibility' obligations on manufacturers and importers of portable, industrial and automotive batteries.

The symbol shown below will be on all equipment fitted with batteries from 26th September 2008 and indicates they must NOT be disposed of with other normal waste. Instead, it is the user's responsibility to dispose of used batteries by arranging to return them to a designated collection point for the correct recycling.

For more information about where you can send your waste batteries for recycling contact your local authority office.

PLAYER TIPS / NOTICE

PRIZE ARROW

Higher value prizes may be more difficult to win. Review potential prizes and read all instructions before you decide to play.

You will learn with practice.

Not all play results in a prize. Aim the arrow at the prize you want to win, shoot the arrow so that it fits inside the win area.

DO NOT shake or tilt the machine. It is unsafe and it will not help you win. It may cause the machine to alarm.

Watch the timer for the remaining play time.

HAVE FUN

3

WATCH YOUR HEAD OR HANDS!
DO NOT PUSH OR HIT THIS.
IT WOULD BE DAMAGED.

4

High voltage can cause an electric shock.
Do not open other than service personnel

4. How to Assemble

1. Assemble the Button Box Ass'y with enclosed Bolts 4ea [TH M4 X 10L] to the Front Door Ass'y.
2. Connect wire harness of the Button Box Ass'y to the connectors from main PCB.
3. Assemble the Billboard Ass'y with enclosed Bolts 8ea [SEMS M5 X 12L] to the Main Cabinet Ass'y.
4. Connect wire harness of the Billboard to the connector from the main cabinet.

How to re-install Prize Support Brackets

When the machine was delivered from the factory, Prize Support Brackets were fixed on the back of the shelves.

(Before displaying prizes on prize shelves) Loosen hand knob screws and pull out the bracket as far as possible in the direction indicated by the arrow on the following illustration. Tighten up the hand knob screws to fix the bracket.

* If the bracket isn't sufficiently pulled forward and fixed, the prize shelf may not dispense a prize.

How to install acrylic prize shelf front covers

Mount 8 prize basket guide acryl in the order and position as the following illustration shows.

5. How to Display Prizes

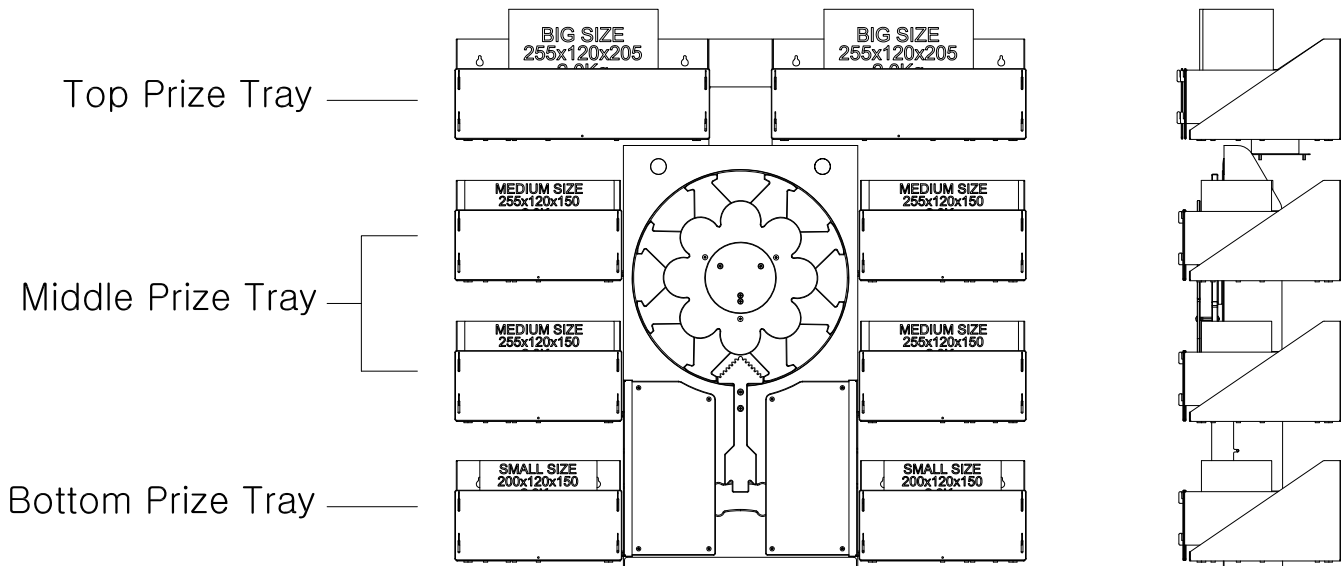

* Please note prize shelves may not dispense prizes in case dimension of a prize is out of maximum prize size given below.

Top Prize Tray
 Maximum Prize Box Size
 width : 255mm
 Depth : 120mm
 Height : 205mm
 Weight : 2kg

Middle Prize Tray
 Maximum Prize Box Size
 width : 255mm
 Depth : 120mm
 Height : 195mm
 Weight : 2kg

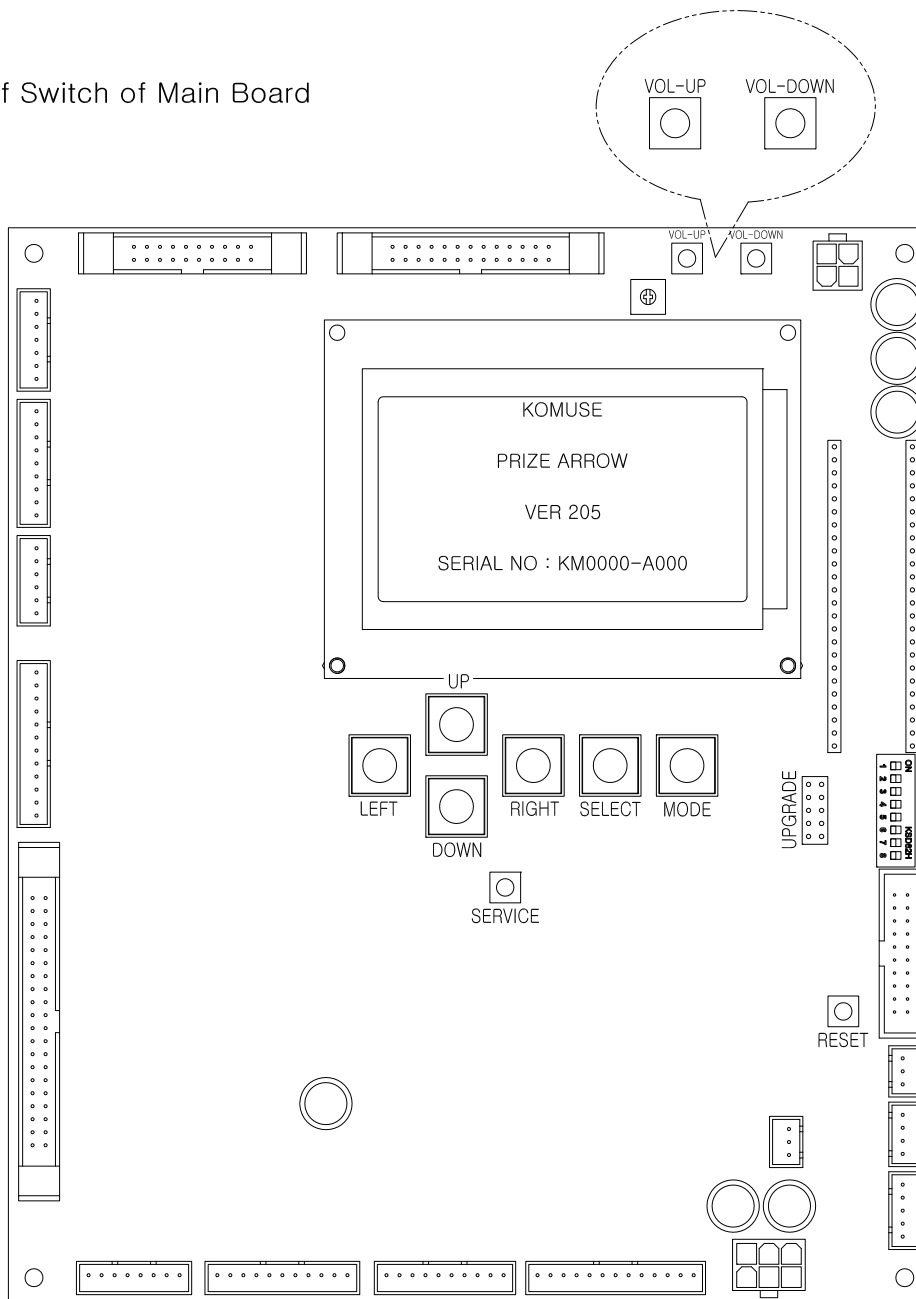

Bottom Prize Tray
 Maximum Prize Box Size
 width : 200mm
 Depth : 120mm
 Height : 150mm
 Weight : 2kg

You will need to monitor win ratio's and adjust the value of the prize up or down to meet your desired win ratio. The maximum prize value should not exceed the legal guidelines applicable to the location where you operate.

6. Function

6-1. Description of Switch of Main Board

(Main Board)

- 1) [Service] : Service Credit
- 2) [Vol-Up /Down] : To adjust Volume level.
- 3) [Up / Down] : To move to each Setup Menu / to adjust Setup Value.
- 4) [Left / Right] : To move a cursor right and left at menu / mode
- 5) [Select] : To select / To enter into menu / mode
- 6) [Mode] : To select / To enter into menu / mode

- Calibration Mode = Press SELECT button for 3 seconds.
- Setup Mode = Press MODE button for 3 seconds
- Test Mode = Press UP button & DOWN button at the same time.
- Account Mode = Press UP button & RIGHT button at the same time.
- Credit Clear = Press Service button for 3 seconds.

6-2. LCD Brightness & Sound Volume

Changed in 5 seconds After Powered On.

7. Hole Check Mode

*This mode is used to check conformity of target wheel win slot (hole A, 1, 2, 3, B, 4, 5, 6) to its prize shelf A, 1, 2, 3, B, 4, 5, 6.

- 1) Hole Check : It shows how many times arrow acryl is completely inserted into hole (wheel win slot).
- 2) Hole Range Data : Range of each hole (wheel win slot)

7-1. How to Setup.

- 1) Press SELECT Button for 3 sec to enter into Calibration Mode.
- 2) Push UP/DOWN button to move up or down in the menu and press SELECT button.
- 3) Press MODE button to return to the upper menu.

```
